SKILLS

- **Languages:** JavaScript, Python, HTML, CSS, SQL, C++
- **Frameworks:** React.js, Node.js, Tailwind CSS
- **Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn
- **Tools & Platforms:** Git, GitHub, Linux (Bash), Jupyter Notebook, Microsoft Excel, Power BI
- **Soft Skills:** Adaptability, Problem Solving, Team Player

PROJECTS

Online Auction Website | GitHub — Nov' 2024

- Engineered an Auto-Bid Agent (Proxy Bidding) that automatically places bids up to a user-defined limit, enabling smart and efficient bidding.
- Implemented an Anti-Sniping mechanism that dynamically extends auction time for last-second bids, ensuring fair and competitive auctions.
- Integrated advanced bidding logic with secure authentication, real-time bid processing, and optimized database queries to enhance performance and reliability.

Tech: HTML, CSS, JavaScript, Node.js, Express.js, MySQL, REST API, Git

AI Weather Forecast Website | GitHub — Mar' 2025

- Built a rural-focused weather intelligence platform providing micro-zone (village-level) forecasts and localized environmental insights instead of generic city-based weather data.
- Developed a rule-based AI advisory engine that analyzes real-time weather data to generate crop protection alerts, irrigation guidance, and severe weather risk warnings for farmers.
- Implemented a voice-enabled weather alert system delivering spoken forecasts and safety notifications in regional language, improving accessibility for low-literacy rural users.

Tech: HTML, CSS, JavaScript, Node.js, OpenWeatherMap API, MySQL, REST API, Git

Online Examination System | GitHub — July 2025

- Developed a full-stack web-based Online Examination System enabling secure student authentication, exam creation, automated result evaluation, and real-time answer submission using Spring Boot and React.
- Designed and implemented RESTful APIs with layered architecture (Controller, Service, Repository, Entity) and integrated MySQL for efficient data management and relational mapping.
- Built an admin dashboard for question management, exam monitoring, and result tracking, ensuring smooth frontend-backend integration and optimized performance.

Tech: Java, Spring Boot, MySQL, React, REST API

TRAINING

Cyber Security & Ethical Hacking Training Program | The Drop Organization — Nov' 2025

- Completed a 4-month foundational training in Cybersecurity and Ethical Hacking, covering basic concepts of network security, system vulnerabilities, malware awareness, secure coding, and ethical hacking principles.
- Gained basic hands-on exposure to Kali Linux tools for reconnaissance, scanning, and password testing, along with understanding fundamental defensive concepts such as firewalls, encryption, and intrusion detection.

CERTIFICATES

- Cloud Computing Certificate | NPTEL — Apr' 2025
- Generative Ai Mastermind | Outskill — Nov' 2025
- The Bits and Bytes of Computer Networking | Google — Sep' 2024
- Computer Communications Specialization| Coursera — Sep' 2024

EDUCATION

- **Lovely Professional University** — Panjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.11** — Since Aug 2023
- **Proton Academy Senior Secondary School** — Jaipur, Rajasthan
  Intermediate: **Percentage: 93.50** — June 2019- Mar 2021
- **Government Secondary School** — Jaipur, Rajasthan
  Matriculate: **Percentage: 75.50** — June 2017- Mar 2019
